Chairman's Statement

I am pleased to report that gross rental income rose from £1,089,970 to £1,160,102 in the year to 31 March 2013. However, this rise in income was offset by a further fall in the value of the Company's properties to £12,490,000 compared with £13,230,000 at the end of the previous year. A fall in the value was anticipated in my previous statements due to the state of the market in retail property investments.

Administrative expenses and bank interest were similar to the preceding year and this resulted in a small profit of £65,688 before taxation. An interim dividend of 7 pence per ordinary share was paid in April of this year and the board has decided to recommend a final dividend of 16 pence per share (same as last year) payable on 14 October 2013 to holders of ordinary shares registered at close of business on 13 September 2013.

During the year, the Company purchased a freehold retail investment property in Wellington, Shropshire but there are no sales to report. At the present time, all tenants are up-to-date with their rental payments and there are no vacant properties. However, some current leases are due to expire and there is no guarantee that tenants will renew their terms. If they do, lower rents may be payable in accordance with market conditions. The board hopes that the economy will improve and the High Street will come back again and rents will be stabilised at realistic levels.

Based on the Balance Sheet, the net asset value of each ordinary share was £6.39 as at 31 March 2013 compared with £6.78 at the end of the previous year.

The Annual General Meeting of the Company will be held at the Hendon Hall Hotel, Ashley Lane, London NW4 1HF on 11 September 2013.

Finally, I would like to thank my co-directors and the Company's advisors for their support during a difficult year.

MICHAEL CONN

There have been no other changes in the above Director's shareholdings in the period 1 April 2013 to 6 June 2013.

Major Shareholdings

Other than the Directors there were no major interests in the shares of the Company.

Principle risks and uncertainties

The principle risks of the Company remain the loss of value to the portfolio, reduction in rents due to negative rent reviews, loss of tenants and significant increase to interest rates. The Company is generally well positioned to deal with all these uncertainties and risks and reviews these major risks and uncertainties on a constant basis.

The Company reviews its cash flow on a regular basis and manages its cash flow risk as circumstances dictate at the time. At present risk associated to the Company's exposure to price through its rentals and interest rates together with the risk associated with liquidity and cash flow risk remains subdued and under control.

Corporate Governance

The purpose of this statement is to describe the Company's approach to corporate governance and, in particular, to explain how the Company has applied the provisions set out in the Corporate UK Governance Code.

The Board recognises the importance of the principles and provisions and has complied with all the provisions of the UK Corporate Governance Code except for certain specific provisions detailed in the sections below.

The Company's principal business consists of the acquisition and management of investment properties, the majority of which are let on full repairing and insuring leases. These activities are managed and controlled by the present Board which consists of the Executive Chairman, the Managing Director, the Finance Director and two Non-executive Directors. All material decisions are taken by agreement of all Directors who are in regular contact with each other through both formal and informal meetings.

The Board considers one of the Non-executive Directors to be independent. The Code's provisions state that the majority of Non-executive Directors should be independent. The Board is seeking to increase the number of Non-executive Directors.

In accordance with the Company's Articles of Association, one-third of the Board are required to retire by rotation each year. The Code requires that over a three year period all Directors should retire from the Board and face re-election and the Company has complied with this requirement.

The functions of the remuneration, audit and nomination committees referred to in the Code are undertaken by the Board as a whole. When the Board meets as the remuneration committee it is chaired by the independent Non-executive Director. When the Board meets as an audit committee it is chaired by the Financial Director. It discussed all issues raised by the auditor and arising from the audit as well as ensuring the auditor's independence is assured.

The policy of the Board is to ensure that the administration expenses of the Company are kept at an economic level, consistent with good management, for the ultimate benefit of the shareholders. Independent professional advice is, where necessary, sought and obtained in relation to the Company's business activities.

There were 9 board meetings, one audit committee meeting and one remuneration committee meeting during the year and each was attended by all the Directors.

Report of the Directors continued

The Board has not established formal performance evaluation procedures of itself, the Directors or its committees but during the forthcoming year it will consider whether implementation of such procedures is appropriate.

In view of the nature of the Company and its size it is not felt appropriate that:

- The Board should have a formal schedule of matters specifically reserved to it for decision
- There should be an agreed procedure for Directors in furtherance of their duties to take independent professional advice if necessary, at the Company's expense
- Non-executive Directors should be appointed for specific terms

Directors' Remuneration

As stated above, the Board as a whole undertakes the function of the remuneration committee described in the Code. This practice does not conform to the Code, as the remuneration committee does not consist exclusively of Non-executive Directors.

The details of Directors' remuneration for the year ended 31 March 2013 are disclosed in the Directors' Remuneration Report.

Shareholder Relations

The Company does not have meetings with institutional shareholders but encourages all shareholders to participate in the Company's Annual General Meeting.

A member of the Board will be available to answer questions at the forthcoming Annual General Meeting. In addition proxy votes will be counted and the results announced after any vote on a show of hands.

The Board has complied with the recommendation of the UK Corporate Governance Code that the notice of the Annual General Meeting and related papers should be sent to shareholders at least twenty working days before the meeting.

For this reason, they continue to adopt the going concern basis in preparing the Group's accounts. The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's transactions and disclose with reasonable accuracy at any time the financial position of the group and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the Accounts

Compliance with accounting standards

The accounts have been prepared in accordance with the International Financial Reporting Standards as adopted by the European Union (IFRS) and therefore the Group financial statements comply with Article 4 of the EU IAS Regulations. The historical cost basis has been applied except that investment properties are stated at their fair value.

The Directors consider that the Company and Group have adequate resources to continue in operational existence for the foreseeable future and are satisfied that the Company is a going concern. The Group maintain a low level of borrowing and have significant interest cover. Rental income has remained strong throughout the year. For this reason, they continue to adopt the going concern basis in preparing the Group's accounts

The Group has adopted all of the new and revised Standards and Interpretations issued by the International Accounting Standards Board (IASB) and the International Financial Reporting Interpretations Committee (IFRIC) of the IASB that are relevant to its operations and effective for accounting periods beginning 1 October 2009. New standards and interpretations currently in issue but not effective for accounting periods commencing on 1 April 2012 are:

- IFRS 9 Financial Instruments (effective 1 January 2015)
- IFRS 10 Consolidated Financial Statements (effective 1 January 2013)
- IFRS 11 Joint Arrangements (effective 1 January 2013)
- IFRS 12 Disclosure of Interests in Other Entities (effective 1 January 2013)
- IFRS 13 Fair Value Measurement (effective 1 January 2013)
- IAS 19 Employee Benefits (Revised June 2012) (effective 1 January 2013)
- IAS 27 (Revised), Separate Financial Statements (effective 1 January 2013)
- IAS 28 (Revised), Investments in Associates and Joint Ventures (effective 1 January 2013)
- Deferred Tax: Recovery of Underlying Assets - Amendments to IAS 12 Income Taxes (effective 1 January 2013)
- Presentation of Items of Other Comprehensive Income - Amendments to IAS 1 (effective 1 July 2013)

As of 31 March 2013, the following standards and interpretations are in issue but not yet adopted by the EU:

- IFRS 9 Financial Instruments (effective 1 January 2015)
- IFRS 10 Consolidated Financial Statements (effective 1 January 2013)
- IFRS 11 Joint Arrangements (effective 1 January 2013)
- IFRS 12 Disclosure of Interests in Other Entities (effective 1 January 2013)
- IFRS 13 Fair Value Measurement (effective 1 January 2013)
- IAS 19 Employee Benefits (Revised June 2012) (effective 1 January 2013)
- IAS 27 (Revised), Separate Financial Statements (effective 1 January 2013)
- IAS 28 (Revised), Investments in Associates and Joint Ventures (effective 1 January 2013)
- IFRS 7 (amendments), Offsetting Financial assets and Financial Liabilities (effective 1 January 2013)
- IAS 32 (amendments), Offsetting Financial assets and Financial Liabilities (effective 1 January 2014)
- Disclosures - Transfers of Financial Assets - Amendments to IFRS 7 (effective 1 July 2012)
- Deferred Tax: Recovery of Underlying Assets - Amendments to IAS 12 Income Taxes (effective 1 January 2013)
- Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters - Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards (effective 1 July 2012)
- Presentation of Items of Other Comprehensive Income - Amendments to IAS 1 (effective 1 July 2013)

The directors anticipate that the adoption of these Standards and Interpretations in future periods will have no material impact on the financial statements of the Group.

Notes to the Accounts continued

1. Accounting policies

The principal accounting policies adopted in the preparation of the accounts are set out below:

- a) The accounts have been prepared under the historical cost convention as modified by the revaluation of investment properties.
- b) The consolidated financial statements consist of the accounts of the parent company and its subsidiary undertaking, both of which are made up to 31 March.
- c) Taxation on the results for the year includes current and deferred tax. Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary timing differences can be utilised. Such assets and liabilities are not recognised if the temporary differences arise from the initial recognition of assets and liabilities in a transaction that affects neither taxable profit nor accounting profit. The deferred tax which would be payable if revalued assets were sold at their revalued amount is provided for.

Deferred tax is calculated using tax rates and laws that have been enacted or substantially enacted by the balance sheet date and that are expected to apply in the period when the liability is settled or the asset is realised.”

- d) Investment properties are revalued annually at their fair value. Acquisitions and disposals are recognised on exchange. Any gain or loss arising from a change in fair value is recognised in the consolidated statement of comprehensive income. A revaluation reserve is maintained in the balance sheet representing accumulated unrealised gains by means of transfers with retained earnings. No depreciation is provided on investment properties, which is a departure from the requirements of the Companies Act 2006. In the opinion of the directors these properties are held primarily for their investment potential and so their current value is of more significance than any measure of consumption. If this departure from the Companies Act 2006 had not been made, the profit for the year would have been reduced by depreciation. However, the amount of depreciation cannot reasonably be quantified. The departure for the provisions of the Act is required in order to give a true and fair view.
- e) Rental income is recognised on an accruals basis.
- f) Financial Instruments: Financial assets and liabilities are recognised in the Group's balance sheet when the Group has become a party to the contractual provisions of the instrument.

Notes to the Accounts continued

- g) Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.
- h) Cash and cash equivalents consist of all the Group's cash and bank accounts including overdrafts but excluding all bank loans.
- i) The Company is incorporated in England and is a public limited company. The Group and the Company's tax domicile is the UK.
- j) The Group makes certain estimates and assumptions regarding the future. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The significant estimates and assumptions are discussed below.
Investment property
The directors revalue the investment properties annually; advice is taken from experts periodically. The directors have considered the future movements on property portfolio and have estimated the probable recoverable deferred tax.

Boddy & Edwards, independent chartered surveyors, carried out an independent valuation of the properties at a fair value amounting to £12,490,000 at 31 March 2013. The valuation was made in accordance with the appraisal and valuation manual of the Royal Institution of Chartered Surveyors. The historical cost of the properties was £13,841,538 (2012: £13,637,396). The group's properties are all within the UK and are mainly let to retailers.

The reduction in the value of the investment properties has created a deferred tax asset the amount of which is shown in note 6. This is not the full potential asset but the anticipated recoverable amount in the foreseeable future.

Six of the Company's properties have been charged to the Company's bankers as security for Company borrowings. The aggregate value of these properties in the accounts amounts to £5,580,000. The Company pays interest at 1% above Barclays base rate.

3. Equity investment

The company owns 100 per cent of the issued ordinary share capital of Contemporary Securities Limited, an unlisted Company registered in England. The Company is dormant.

16. Financial instruments

The financial instruments used by the Group comprise internal cash resources, bank loans and overdrafts and short-term debtors and creditors arising from normal trading activities.

a) Capital risk management

The Group's objectives for managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an efficient structure to manage the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend paid to shareholders, return capital to shareholders and issue new shares or buy back existing shares. There were no changes to the Group's approach to capital management during the year.

b) Interest rate risk

The Company's bank borrowings are all subject to floating rates of interest linked to UK base rates. At 31 March 2013 these financial liabilities amounted to £2,356,942 (2012: £2,500,893). There are no other interest bearing financial liabilities. Each 1% change in base rates affects the finance cost by around £24,000.

c) Currency risk

No financial assets or liabilities are denominated in foreign currencies.

d) Liquidity risk

The Group seeks to manage liquidity risk to ensure sufficient liquidity is available to meet the requirements of the business and to invest cash assets safely and profitably. The Board reviews available cash to ensure there are sufficient resources for working capital requirements.

At 31 March 2012 and 31 March 2013 all amounts shown in the consolidated balance sheet under current assets and current liabilities mature for payment within one year.

e) Fair values

The fair values of financial assets and liabilities at 31 March 2013 are considered to be materially equivalent to their book values.

17. Related party transactions

There were no related party transactions in the year other than dividends and salaries paid to the directors which are disclosed elsewhere in the accounts.

18. Business and geographic segment

For management purposes the group is organised into one operating division which operates in one business segment.
